

# MARCH

## A Peek at the Month:

With the days getting longer and Springtime just around the corner, we leap into March with a renewed sense of excitement! Spring is such a fun time. I will be bringing hands-on science activities that will be fun and engaging for students. Learning the life cycle of a seed and exploring the color spectrum (rainbows) will be just the beginning of specialized learning experiences in 4K at PCA!

## Special Notes:

Reading Circles have been a success. I hope your child has shared their enjoyment on this beginning phase of the reading process with you! I certainly encourage each of you to continue reading with your children daily. Challenge your child and insist on them locating blends in their books. Some may even be ready to decode one-vowel words for you! The excitement of learning this year is helping to prepare your child for five-year-old kindergarten!

Thanks,  
Ms. Kodi Dawson

## Class Wish List:

Packing tape  
Cotton balls

A special thank you to all parents who have so graciously contributed to the specific needs/requests of our class. We sincerely appreciate your generosity!

## Important Dates:

3/8 – Daylight Saving Time  
3/14 – National Pi Day  
3/17 – St. Patrick's Day
